The WiMob conference is an international forum for the exchange of experience and knowledge among researchers and developers concerned with wireless and mobile technology. For fourteen years, the International WiMob conference has provided unique opportunities for researchers to interact, share new results, show live demonstrations, and discuss emerging directions in - Wireless Communication, - Wireless Networking, Mobility and Nomadicity, - Ubiquitous Computing, Services and Applications, - Green and sustainable communications and network computing and - Security on Wireless and mobile Networks.

WiMob 2018 will take place in Limassol, Cyprus, during 15-17 October, 2018.

WiMob 2018 is soliciting high quality technical papers addressing research challenges in the areas of wireless communications, wireless networking, mobility, nomadicity, ubiquitous computing, services and applications. Papers should present original work validated via analysis, simulation or experimentation. Practical experiences and Testbed trials also are welcome.

WiMob 2018 will host FIVE parallel symposia, including but not limited to the following topics:

- Wireless Communications (WC)
- Wireless Networking, Mobility and Nomadicity (WNMN)
- Ubiquitous Computing, Services and Applications (UCSA)
- Green and Sustainable Communications and Network Computing (GSCN)
- Security on Wireless and Mobile Networks (SWMN)
